LITTLE BROTHER

CE RoHS KEMA KEUR

Architectural & Landscape

Sports Lighting

Large Outdoor Industrial Area

Agricultural Area

Ventilation cable gland

Combines pressure equalization and cable gland in a single unit. It ensures high air flow rates as well as high water protection capacity

Glass

Flat glass. Glass is fixed to die-cast aluminium frame with metal clips and can easily be replaced

LED module

High quality LED's with optimal thermal resistance and energy consumption characteristic, for high lumen output and long expected life time. Color temperature available: 3000K, 4000K (5000K, 5700K available on customer request)

Intelligent light control system

Power line or radio frequency

Protection

IP66 for the complete luminaire

Impact resistance

IK10 (Vandal protected) for the complete luminaire

Module temperature control

The LED driver will start reducing the light output when the LED's approach critical temperature. The temperature is measured via a sensor placed on the PCB
(function available on customer request)

Body

Die-cast aluminium

Lighting protection

Built-in surge protection starting from 3 kV till 10 kV

Light regulation

STORK drivers offer integrated midnight dimming and network-controlled 1-10V and DALI protocols

Opening

Die-cast aluminium clip for tool-less opening or closing, fixed to the frame with stainless steel spring for easy maintenance

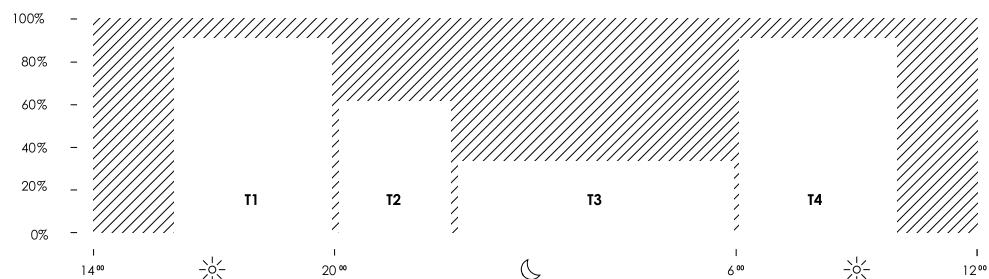

Safety switch

Safety switch disconnects power on opening

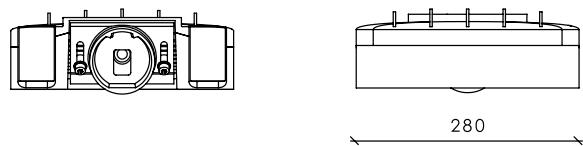

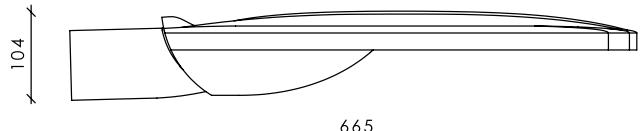

Midnight dimming

Midnight dimming provides multi-stage night-time power reduction based on an internal timer referenced to the power on/off time. There is no need for an external control infrastructure. The unit automatically performs a dimming profile based on the predefined scheduled reference to the midpoint, which is calculated based on the power on / off times.

Horizontal entry

Vertical entry

V	220 - 240	1-10V; DALI; Midnight dimming
Hz	50 - 60	Radio frequency / Power line ^{3}
W	18 - 178	3; 6; 10 kV (optional) ^{4}
	18 - 200 ^{7}	Warranty 5 years
Im	2300 - 23450	100 000h (L80B10C10) ^{5}
Im/W	124 - 142	100 000 h (L95B10C10) ^{6}
K	3000 / 4000 ^{11}	
°C	-40 to +50	
CRI	>70 / >80 ^{2}	
		Body: Die-cast aluminum
		Spigot: ø 40-60, with accessories ø 32; ø 76
		Neto weight: 5,96 - 7,03 kg
		Max.wind load area, SCd, m2: 0,04

^{1} 5000; 5700 K available on request

^{2} Luminaries with color rendering index (CRI): Ra >90 on request

^{3} Optional. Available only with DALI ; 1 - 10 V

^{4} 10 kV (L-N; L/N-PE) surge protection device available on request

^{5} Average lifetime value for ECO model at Ta = 25°C is 100 000h L80/B10*

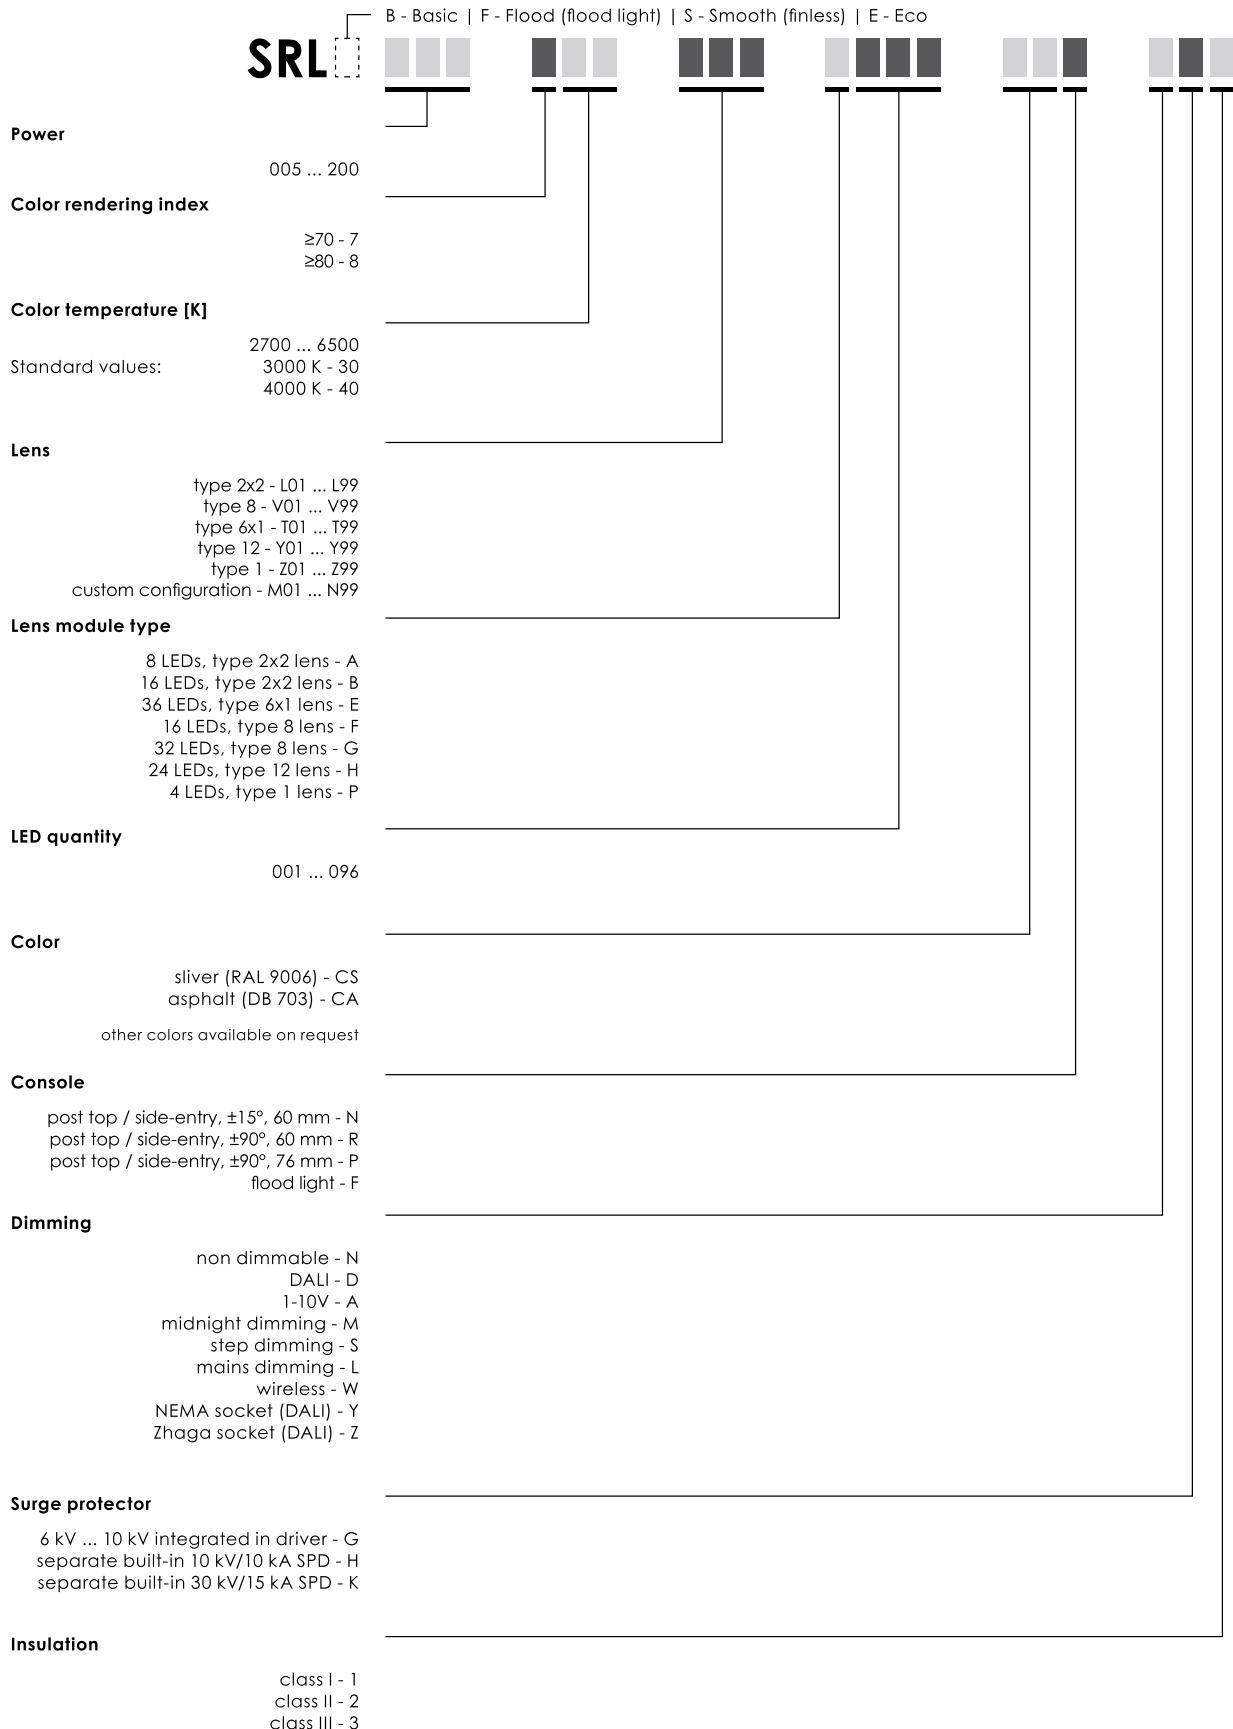

*This value is only informative and may change according to selected article. LED Lifetime is strongly depending from LEDs current and junction temperature – increase in LED current and luminaire power lead to increase of junction temperature and as consequence lifetime decrease. Thus, luminaire models with lower power, lower current (and lower junction temperature) will have higher lifetime than standard models and will reach 100 000h L90/B10. And high power and high current luminaire models may have negative lifetime deviation comparing to standard models. To receive precise value please contact VIZULO export representatives.

^{6} Standard / High Power / High Density at Ta=25°C, this value is only informative and may change according to selected article

^{7} Configuration not in production
